
SMS Integration

Create SMS integration for chatbots

Broadcast SMS messages one-by-one or send mass SMS campaigns

Send updates, alerts and notifications via SMS

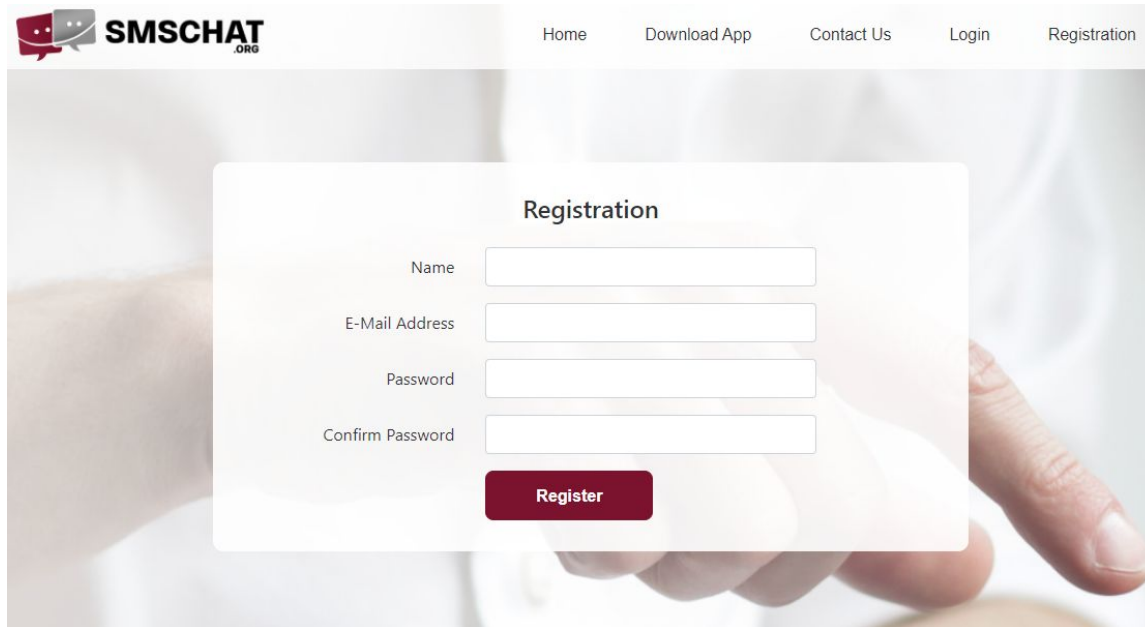

For testing and Small business: <https://smschat.org>

Use your own phone (Android only) for testing and small business activities (\$5 / month for 20k SMS).

Enterprise applications use Twilio's Professional SMS services.

Use your own Twilio account for building both SMS and Voice bots with Promptchat's universal chatbot builder. <https://www.twilio.com/sms> (Usage based pricing)

Start on <https://smschat.org/register>

The screenshot shows the registration page for SMSCHAT.ORG. At the top left is the logo with the text "SMSCHAT.ORG". To the right of the logo are navigation links: "Home", "Download App", "Contact Us", "Login", and "Registration". The main content area features a white registration form with the title "Registration" centered at the top. The form contains four input fields: "Name", "E-Mail Address", "Password", and "Confirm Password". Below these fields is a dark red button labeled "Register". The background of the page is a blurred image of a hand holding a smartphone.

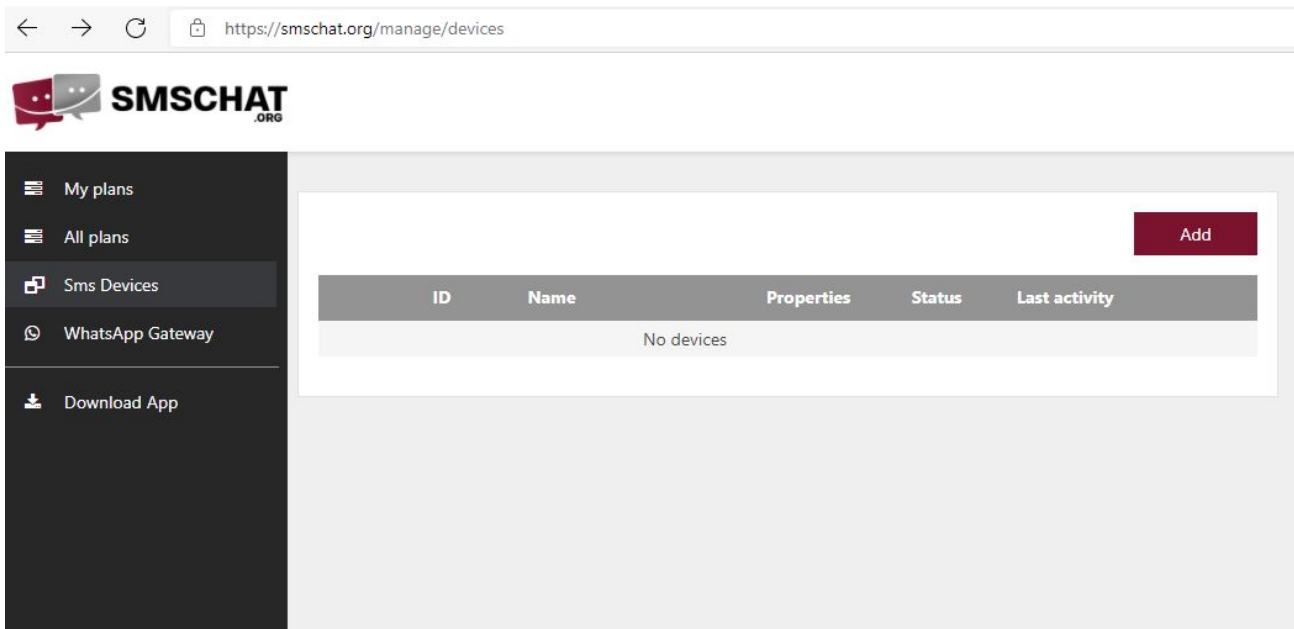

HW Prerequisites:

- Android phone with Android version 6 or above
- 2 GB free storage space

Create an account:

- Register a free SMSChat.org account.
- Verify your email address (Use the same browser)
- Subscribe to a pay monthly or the annual plan
- *7 day free trial plan available*

Add a sending phone (device) to your SMSchat plan

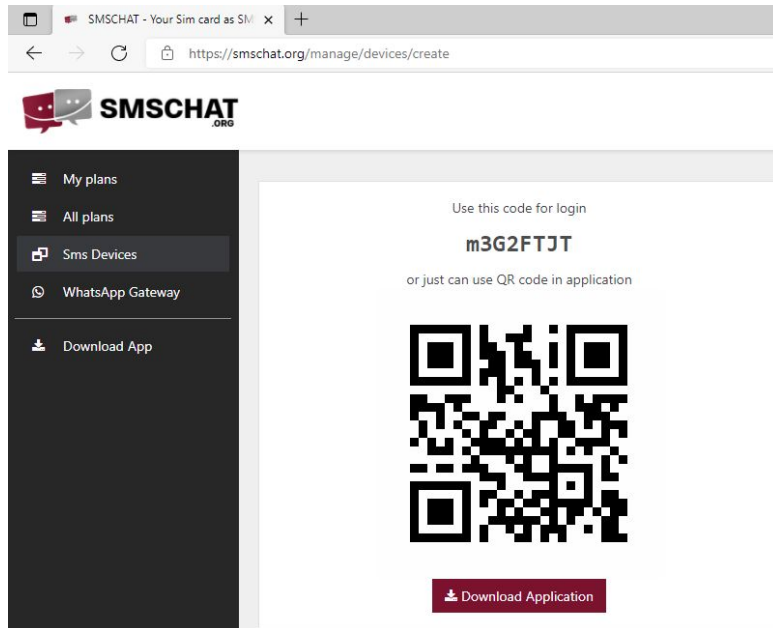

The screenshot shows a web browser at the URL <https://smschat.org/manage/devices>. The page features the SMSCHAT.ORG logo and a dark sidebar with navigation options: My plans, All plans, Sms Devices (selected), WhatsApp Gateway, and Download App. The main content area displays a table with columns for ID, Name, Properties, Status, and Last activity. The table is currently empty, showing "No devices". A red "Add" button is located in the top right corner of the table area.

ID	Name	Properties	Status	Last activity
No devices				

Once you selected your plan you will be taken to the page called “**SMS devices**” and then you will click on the “Add” button.

You can add as many Android phones as you want. (Depending on the number of messages you want to send out per month.)

Download the SMSChat Android app to your phone

These steps are processed using your phone

Using your mobile phone go to <https://smschat.org>

Log into your account with your recently created account using the same credentials.

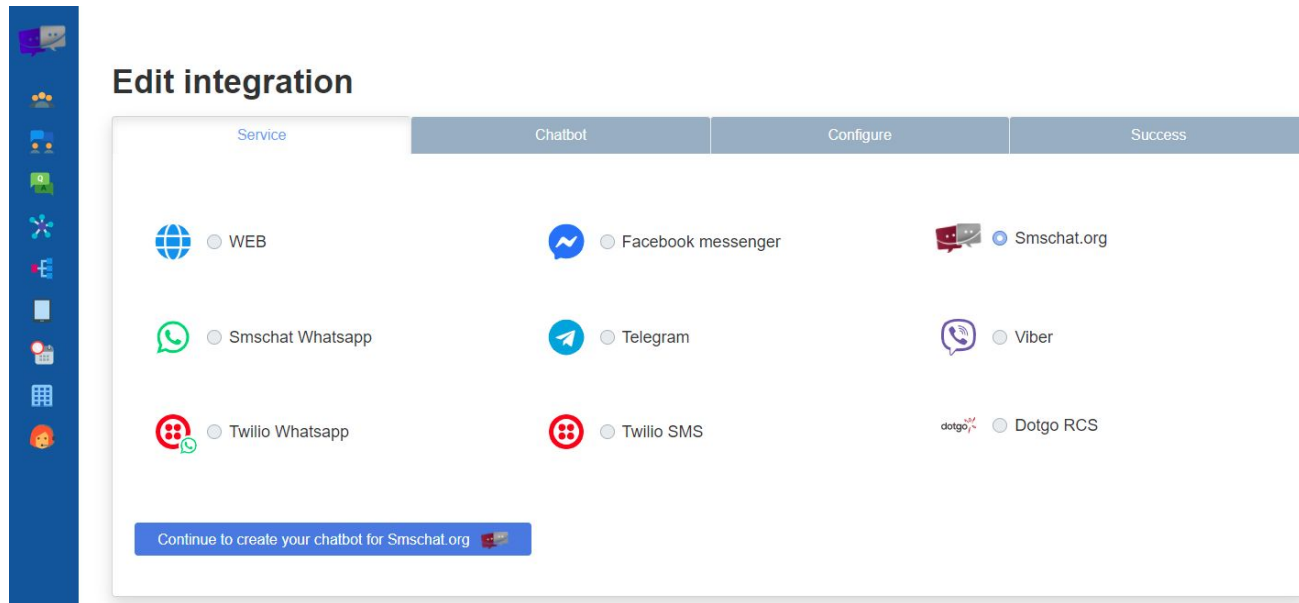

Click on the SMS devices tab

Click the “Add device” button

Point your phone towards the QR code

The QR code will have authenticated your phone

Now create the integration for SMSchat.org in Promptchat

Edit integration

Service | Chatbot | Configure | Success

<input type="radio"/> WEB	<input type="radio"/> Facebook messenger	<input checked="" type="radio"/> Smschat.org
<input type="radio"/> Smschat Whatsapp	<input type="radio"/> Telegram	<input type="radio"/> Viber
<input type="radio"/> Twilio Whatsapp	<input type="radio"/> Twilio SMS	<input type="radio"/> Dotgo RCS

Continue to create your chatbot for Smschat.org

In your Promptchat dashboard, go to the Integrations tab

Select the SMSchat.org icon and continue to create your SMSchat integration by clicking the **Continue** button below

All fields mandatory

Edit integration

Service	Chatbot	Configure
Name	Chatbot	
<input type="text" value="SMS_Contact"/>	<input type="text" v="v" value="Social Messenger Contact" x="x"/>	
Prefix	Language	
<input type="text" value="SMS"/>	<input type="text" v="v" value="English" x="x"/>	
<input type="button" value="Select service"/>		

Enter the name for your integration

The Prefix (how this will appear in your Chatboard)

Pick the chatboard from the drop down menu

And the language the chatbot will use.

Retrieve your token from your SMSchat.org account

Edit integration

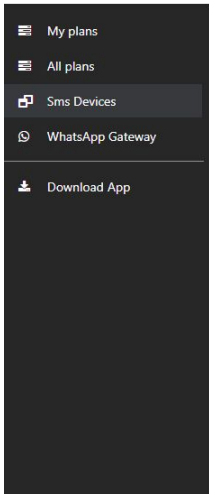

Service	Chatbot	Configure
Contact support if you need help with this		
Token		
<input type="text" value="M6cVFtyW40JcvzDI3V14YvqNIHSEd07k"/>		
<input type="button" value="Continue"/>		

You will need to enter a Token in this Configure page.

Go to your SMSchat.org Account and navigate to the SMS devices page.

Click on “view”  and copy your token to enter it here.

In your SMSChat.org account go to SMS devices

Device

Status	active
Model	SM-G389F Galaxy XCover 3
Battery:	71% 
Last active:	17.05.2021 05:50:36 PM

#	Serial	Operator	Slot	Status	More
47	8944200119752006152f	CARD 1	1	●	
71	734ab14763c7ea2slot-0	CARD 1	1	●	

[Click here](#)

Pick the SIM card you want to use for your SMS Integration

This integration then can be used for SMS chatbot as well as for SMS broadcast campaigns.

See the next page for where you copy the Token from.

Copy your Token from here.

Navigation menu:

- My plans
- All plans
- Sms Devices
- WhatsApp Gateway
- Download App
