

Telegram Integration

Promptchat Multichannel Inbox

Download the Telegram app or go to <https://t.me/botfather> and create a new bot

Pick a name for your Telegram chatbot

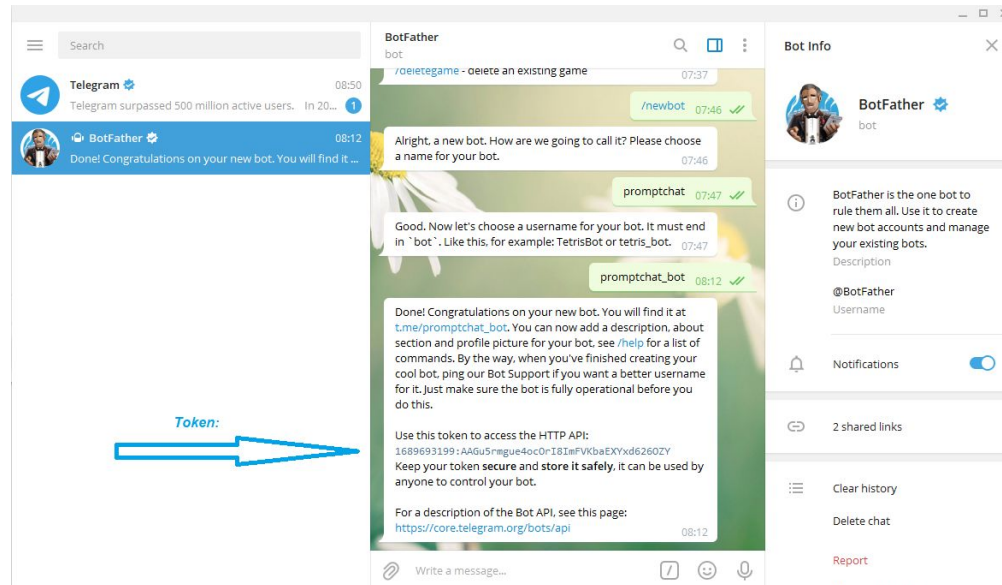

The screenshot shows a Telegram chat with BotFather. The chat history includes:

- BotFather: Done! Congratulations on your new bot. You will find it at t.me/promptchat_bot.
- Telegram: New login. Dear kornel, we detected a login into your account.
- BotFather: /deletegame - delete an existing game
- User: /newbot
- BotFather: Alright, a new bot. How are we going to call it? Please choose a name for your bot.
- User: promptchat
- BotFather: Good. Now let's choose a username for your bot. It must end in "bot". Like this, for example: TetrisBot or tetris_bot.
- User: promptchat_bot
- BotFather: Done! Congratulations on your new bot. You will find it at t.me/promptchat_bot. You can now add a description, about section and profile picture for your bot, see [/help](#) for a list of commands. By the way, when you've finished creating your cool bot, ping our Bot Support if you want a better username for it. Just make sure the bot is fully operational before you do this.
- BotFather: Use this token to access the HTTP API:
1689693199:AAgu5rmgue4oc0rI8ImFVKbaEXYxd626OZY
Keep your token secure and store it safely, it can be used by anyone to control your bot.
- BotFather: For a description of the Bot API, see this page:
<https://core.telegram.org/bots/api>

Two blue arrows point from the text "Your brand" to the messages "promptchat" and "promptchat_bot", indicating that the bot's name and username should be related to the brand.

Copy & Paste Telegram API token in your Promptchat integration

The screenshot shows a Telegram chat with BotFather. The chat history includes:

- Telegram: Telegram surpassed 500 million active users. In 20...
