

WhatsApp Integration

- Create chatbot(s) for WhatsApp numbers**
- Share one WhatsApp number amongst your team members**
- Broadcast WhatsApp messages one by one or send mass WhatsApp campaigns**
- Send updates, alerts and notifications via WhatsApp**

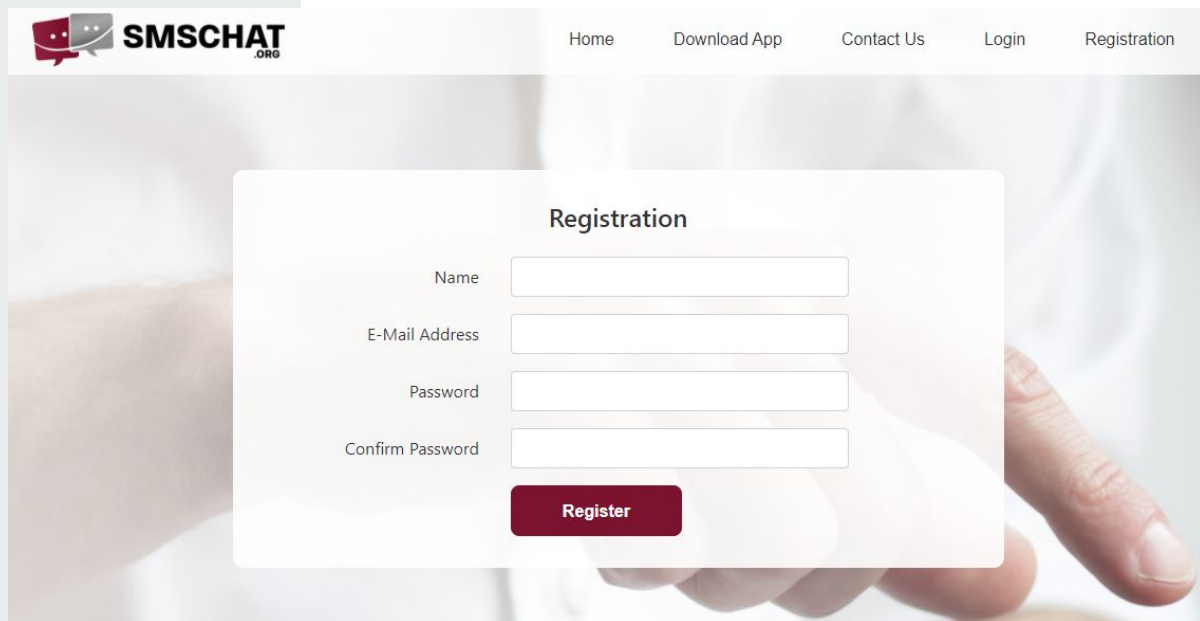

For testing and prototyping purposes you can use your own number. <https://smschat.org>

When finished testing create a Twilio account and launch your WhatsApp bot using the supported official WhatsApp business API by Twilio. <https://www.twilio.com/whatsapp>

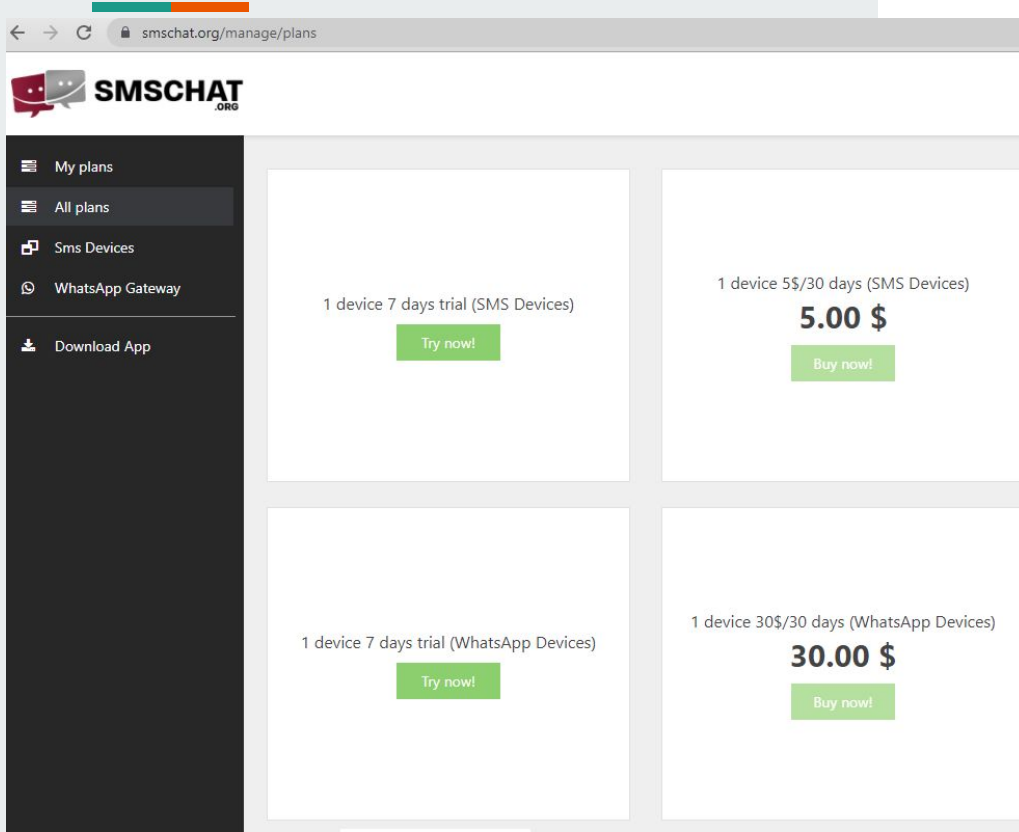

Start on <https://smschat.org/register>

You can start testing your WhatsApp chatbot immediately with an SMSChat.org account. There is a free plan available.

- Register a free SMSChat.org account.
- Verify your email address (Use the same browser)
- Subscribe to a WhatsApp Gateway free trial plan

A screenshot of the SMSCHAT.ORG website's registration page. The page has a white background with a blurred image of a hand holding a smartphone. At the top left is the SMSCHAT.ORG logo. To the right of the logo are navigation links: Home, Download App, Contact Us, Login, and Registration. In the center, there is a white registration form with the title "Registration". The form contains four input fields: "Name", "E-Mail Address", "Password", and "Confirm Password". Below the input fields is a dark red "Register" button.

Pick the free trial plan

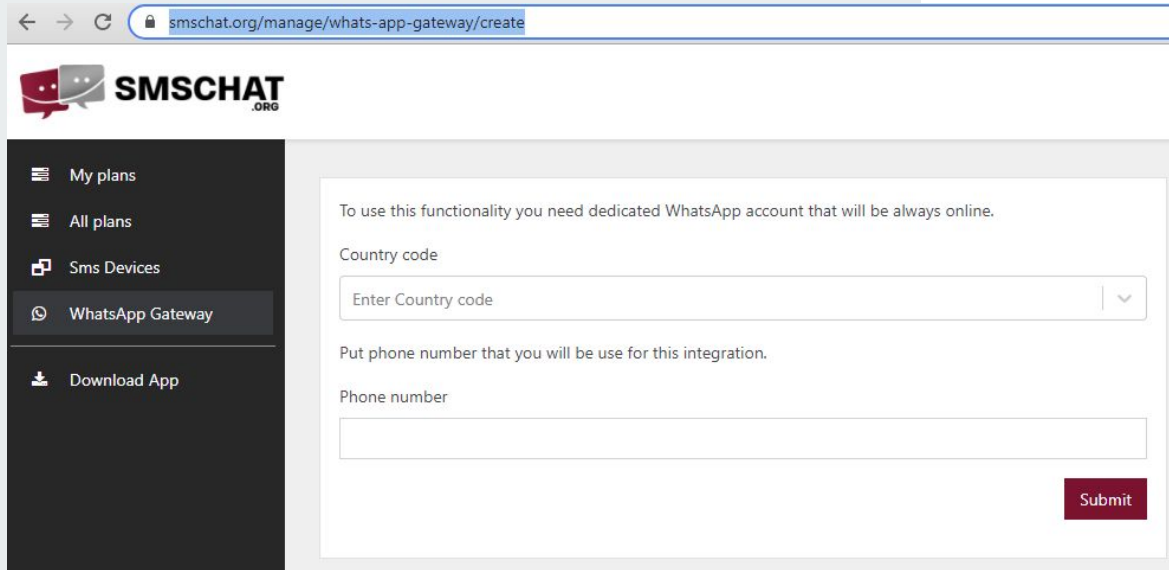

The screenshot shows a web browser at smschat.org/manage/plans. The page features the SMSCHAT logo and a dark sidebar with navigation options: My plans, All plans, Sms Devices, WhatsApp Gateway, and Download App. The main content area displays four plan cards in a 2x2 grid:

Plan Description	Action
1 device 7 days trial (SMS Devices)	Try now!
1 device 5\$/30 days (SMS Devices) 5.00 \$	Buy now!
1 device 7 days trial (WhatsApp Devices)	Try now!
1 device 30\$/30 days (WhatsApp Devices) 30.00 \$	Buy now!

Add a sending phone as WhatsApp gateway

<https://smschat.org/manage/whats-app-gateway/create>

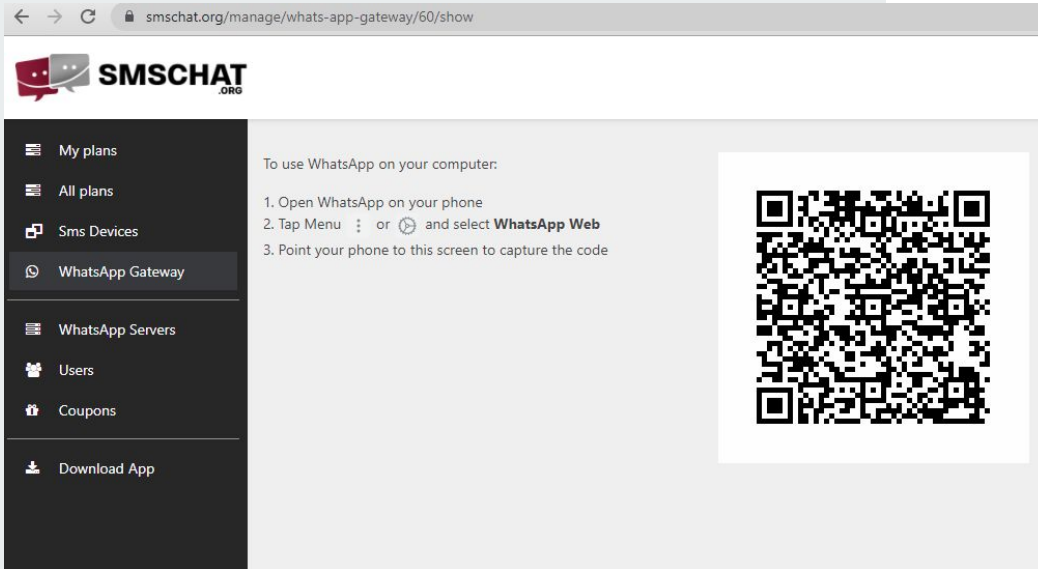

The screenshot shows a web browser at the URL `https://smschat.org/manage/whats-app-gateway/create`. The page features a dark sidebar on the left with navigation options: 'My plans', 'All plans', 'Sms Devices', 'WhatsApp Gateway' (highlighted), and 'Download App'. The main content area contains a form with the following elements:

- A heading: "To use this functionality you need dedicated WhatsApp account that will be always online."
- A label: "Country code"
- A dropdown menu with the placeholder text "Enter Country code" and a downward arrow.
- A label: "Put phone number that you will be use for this integration."
- A label: "Phone number"
- A text input field.
- A red "Submit" button.

- Enter your country code
- Enter your phone number
- Click Submit

Scan the QR code with WhatsApp web

The screenshot shows a web browser at the URL `smschat.org/manage/whatsapp-gateway/60/show`. The page features the SMSCHAT logo and a dark sidebar menu with options: My plans, All plans, Sms Devices, WhatsApp Gateway (highlighted), WhatsApp Servers, Users, Coupons, and Download App. The main content area contains the text "To use WhatsApp on your computer:" followed by a numbered list: 1. Open WhatsApp on your phone, 2. Tap Menu (three dots) or (refresh) and select **WhatsApp Web**, 3. Point your phone to this screen to capture the code. A large QR code is displayed on the right side of the page.

- Open WhatsApp or **WhatsApp Business** on your mobile phone
- Go to Settings (bottom menu)

Link your phone

- Tap on WhatsApp Web/Desktop
- And then link a device

Copy your token

← → ↻ smschat.org/manage/whatsapp-gateway/57/show

My plans
All plans
Sms Devices
WhatsApp Gateway
Download App

Token:

Webhook:

#	Type	Phone number	Text	Attachment	Time
---	------	--------------	------	------------	------

- Once you linked your phone to your SMSChat account you can use it with your chatbot
- Copy the Token and go to your chat account

Integrations tab in your Promptchat account

- Pick Smschat.org

Token

A short horizontal bar with a teal segment on the left and an orange segment on the right.

Success!

Your Chatbot should be available on your WhatsApp number.

While you are using the phone for your tests remember to keep it on charge.

Contact us for assistance when you are ready to launch your chatbot using the Official WhatsApp API provided by [Twilio](#).
